2.5. Is the Congress accredited?

An application has been made to the UEMS EACCME® for CME accreditation for this event. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Regrettably CME certification is not possible at an international level or for each of the numerous individual countries that may participate in the meeting. Often the different accrediting organizations can grant points based on these certificates. So if you wish to pursue the allocation of CME points, we suggest to contact your own accrediting organization for more advice.

2.6. How do I claim my CME credits?

We will send you an evaluation form by e-mail after the event. Completion of the online survey is mandatory to receive CME credits. Once the form is completed, participants will be able to download the CME certificates.
